REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art is deemed to be US 6,106,803 ('803) and US 2004/0059139 ('139). In these patents, it is disclosed that smaller particles of TS-1 have better catalytic properties. See col. 1, lines 28-31 of US '803, and col. 1, line 50 to col. 2, line 14 of US '139. Moreover, it is known to employ spray drying to form a catalyst of the small particles. See the abstract of US '803, and col. 1, line 50 to col. 2, line 14 of US '139. However, the prior art fails to disclose or suggest starting with TS-1 particles that are larger than 10 microns, and reducing the particle size to below 10 microns prior to spray drying.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Sample whose telephone number is (571)272-1376. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (572)272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
